100-Megawatt Armonia Microgrid Project Sets Palau On

ENGIE eps is building what's billed as the world's largest, solar power-energy storage microgrid for the government of Palau. With 100 MW of power generation and distribution capacity, the Armonia microgrid will enable Palau to meet its 45%-by-2025 renewable energy goal five years ahead of schedule, as well as offer electricity at the

Building Palau's first utility-scale solar power plant

An AIFFP-funded solar power plant and battery storage facility has been officially inaugurated in Palau. The plant, comprised of 15.28 MWp of solar power generation and a 12.9MW battery storage facility, is at Ngatpang on ...

Alternergy And Solar Pacific Inaugurate Palau's Largest Solar PV

Renewable power pioneer Alternergy Holdings Corp. (Alternergy) and its subsidiary Solar Pacific Energy Corporation (Solar Pacific) inaugurated the Republic of Palau's first solar PV + battery energy storage system (BESS) project and the largest to date in the Western Pacific region.

Mission - African Sun Energy

You have the ability to own technology that is 100% self-sustaining, clean and affordable. For farm use, commercial use and everything in between, African Sun Energy is the leading ...

About Us

African Sun Energy is a clean energy company located in Botswana and specializes in the provision of off-grid/grid-tied solar photo-voltaic systems and solar PV pumping systems. We develop, design, build, finance, and operate ...

Mission - African Sun Energy

You have the ability to own technology that is 100% self-sustaining, clean and affordable. For farm use, commercial use and everything in between, African Sun Energy is the leading company to contact for all your solar PV needs. Contact us today to ...

African Sun Energy

African Sun Energy develops, designs, finances, and installs solar power systems for on and off residential, commercial, and industrial clients. African Sun Energy is part of GOGLA's ELEVATE cohort.

About Us

African Sun Energy is a clean energy company located in Botswana and specializes in the provision of off-grid/grid-tied solar photo-voltaic systems and solar PV pumping systems. We develop, design, build, finance, and operate projects at a range of different scales, currently at a residential level to utility-scale grid-tied projects.
