Ageto energy Cameroon

Microgrid and behind-the-meter solar expertise

Ageto Energy was founded to simplify the task of integrating renewable energy into power systems. Our team has extensive experience in power management, renewable energy, ...

Ageto Energy Profile

Ageto Energy was founded to simplify the task of integrating renewable energy into power systems. Our team has extensive experience in power management, renewable energy, microgrids, and SCADA. We are uniquely positioned to bridge the divide between renewable power technologies and conventional power generation.

Ageto Energy , Details , Darcy Partners

Ageto Energy provides tailored renewable energy control systems that enable owners and operators of behind-the-meter and off-grid power systems to integrate high levels of renewable energy sources

Ageto Energy

Leveraging off-the-shelf SCADA software and industrial hardware, ARC is a complete microgrid control solution that is inherently reliable and robust. ARC coordinates and dispatches the various energy resources available in the microgrid to maximize renewable energy penetration while ensuring a stable and resilient power system.

Ageto energy

Ageto Energy provides a software platform for off-grid and behind-the-meter microgrid system control operations. The offered product is called Ageto Renewable Controller (ARC) & can be used for real-time renewable power system control, user-level authentication, abnormal behavior notifications, spinning reserve & demand charge management

Microgrid and behind-the-meter solar expertise

Ageto Energy was founded to simplify the task of integrating renewable energy into power systems. Our team has extensive experience in power management, renewable energy, microgrids, and SCADA. We are uniquely positioned to bridge the divide between renewable power technologies and conventional power generation.
