No container design
flexible site layout

Cycle Life
≥ 8000

Nominal Energy
200kwh

IP Grade
IP55

Austrian Power Grid

Austrian Power Grid (APG) is Austria's independent power grid operator, controlling and taking responsibility for the trans-regional electricity transmission network. APG's infrastructure ...

AGR Power

AGR has some of the best people in the business who, day-in, day-out challenge, pioneer and work hard to deliver a quality of service that is second to none. AGR - an ABL Group company - is a multi-disciplinary engineering consultancy, resourcing, and software provider.

AGR

AGR was founded in 2011 to address the early FiT solar and medium-scale wind markets in the UK, with a commitment to renewable energy projects that tackle the global issues of energy security and climate change. Over the last decade, we have grown steadily and built up a team of experts with a track record of delivering sophisticated projects.

Home Energy Storage (Stackble system)

High Efficiency Easy installation Safe and Reliable Perfect Compatibility

Product Introduction

- Scalable from 10 kWh to 50 kWh
- Self-Consumption Optimization
- Integrated with inverter to avoid the compatibility problem
- LFP battery, safest and long cycle life
- Stackable design, effortless installation
- Capacity of high frequency
- Emergency Backup and Off-Grid Function

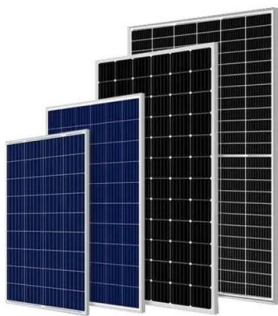

Austrian Power Grid

Die Austrian Power Grid AG beschäftigt ein Team von mehr als 900 SpezialistInnen, die in interdisziplinären Teams zusammenarbeiten. Beste fachliche Qualifikation und höchster persönlicher Einsatz garantieren die sichere und lückenlose Stromversorgung, rund um die Uhr und 365 Tage im Jahr.

Organisation

Austrian Power Grid AG employs more than 900 specialists who work together in interdisciplinary teams. Our specialists' top professional qualifications and high level of personal dedication help to guarantee a secure and uninterrupted supply of electricity around the clock, 365 days a year.

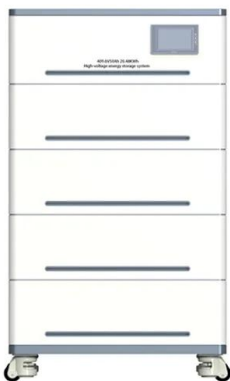

Austrian electricity market model

The current imbalance energy pricing system in Austria was implemented when the Regulation (EU) 2017/2195 establishing a guideline on electricity balancing went into force. The aim of the new system was to adapt the previous rules to European requirements and thereby ensuring an incentive effect of imbalance energy prices on balancing groups.

Austrian Power Grid

Austrian Power Grid (APG) is Austria's independent power grid operator, controlling and taking responsibility for the trans-regional electricity transmission network. APG's infrastructure secures the supply of electricity and is thus the lifeblood of Austria, its people and their businesses.

About us

The electricity grid operated by Austrian Power Grid AG is the backbone of Austria's power supply. The primary function of the power grid is to balance supply and demand, as it is critical that supply and demand are matched every second of every day.

AGR

At AGR we specialise in innovative development and delivery of large-scale renewable energy and sustainable agricultural projects that provide essential clean, sustainable energy and food security for communities, institutions, and blue-chip industries.
