Magazine

Published biannually, the Rho Motion Magazine provides comprehensive coverage of the EV, Battery and Charging markets. The purpose of the magazine is to draw attention to issues that we feel are important to the progress of the energy transition, with a focus on EV, ESS, charging and battery technology developments.

Mapping vertical land motion in challenging terrain: Six-year ...

Here, we present novel VLM results over Tutuila, the largest and most populated island in American Samoa, using interferometric synthetic aperture radar, GPS, tide gauge, and satellite altimetry data. Measurements cover populated areas, with subsidence rates of 6-9 mm/yr and uncertainties of <1 mm/yr; the highest rates lie along the coastlines.
