Syria to host 2024 energy conference as Arab normalisation gains

Syria's re-entry to the Arab fold took a notable step on Thursday after members of the Organization of Arab Petroleum Exporting Countries (OAPEC) unanimously announced that Damascus would host

Energy in Syria

Pumpjack. Energy in Syria is mostly based on oil and gas. [1] Some energy infrastructure was damaged by the Syrian civil war. There is high reliance on fossil fuels for energy in Syria, [2] and electricity demand is projected to increase by 2030, especially for industry activity such as automation. [3] However, conflict in Syria has caused electricity generation to decrease by ...
