The Key to Making Argentina an Energy Transition Powerhouse

Argentina's natural gas reserves have the potential to make the country a global energy transition power player. Discover how new government initiatives can make this a reality by boosting ...

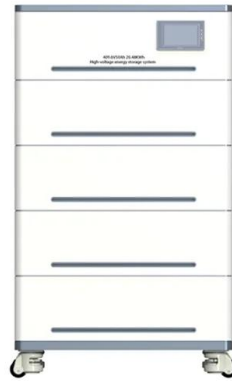

Argentina's crude oil and natural gas production near record highs

Crude oil and natural gas production in Argentina are both nearing record highs, driven by increasing output from the Vaca Muerta shale formation, which is offsetting declining ...

Argentina's Gas Gambit Reshapes South American Energy

Argentina has completed a major infrastructure project that will reshape its energy landscape. The reversal of the Northern Gas Pipeline marks a significant shift in the ...

Energy profile: Argentina

In 2020 Argentina continued to derive more than three quarters of its total energy supply from fossil fuels. Natural gas contributed 59% (up from 54.90% in 2019), followed by oil (27%, down from 32.81%) in 2019).

CGC

Somos una empresa independiente líder en la industria de energía en Argentina, con un atractivo portfolio de yacimientos de petróleo y gas, que se dedica al desarrollo, producción y exploración de hidrocarburos. Somos el sexto productor de gas más grande de la Argentina en base a nuestra producción en boca de pozo.

The Key to Making Argentina an Energy Transition Powerhouse

Argentina's natural gas reserves have the potential to make the country a global energy transition power player. Discover how new government initiatives can make this a reality by boosting production and exports.

Argentina Energy Profile - Analysis

In support of the region's energy goals, the report explores the opportunities and challenges that lie ahead. It provides insights on the ways in which the outlook for the region and the biggest global energy trends are ...

Argentina's Gas Gambit Reshapes South American Energy

Argentina has completed a major infrastructure project that will reshape its energy landscape. The reversal of the Northern Gas Pipeline marks a significant shift in the country's gas distribution strategy. This project will enable Argentina to supply gas to its northern and central regions, as well as export to Brazil.

About Us - CGC

We are a leading independent energy company with an attractive portfolio of oil and gas fields in Argentina engaged in the development, production and exploration of natural gas and crude oil. And, based on wellhead production, we are the sixth-largest gas producer in Argentina.

Argentina's crude oil and natural gas production near record highs

Crude oil and natural gas production in Argentina are both nearing record highs, driven by increasing output from the Vaca Muerta shale formation, which is offsetting declining output from conventional oil and natural gas fields. From January 2021 through September 2024, crude oil production in Argentina increased by 50%, and natural gas production rose by 27%, ...
