Armenia alexander battery technologies

Alexander Battery Technologies

Alexander Battery Technologies, the specialist in customisable lithium-ion and NiMH battery packs and chargers, has achieved yet another highly successful year, backed by substantial investment in both people and capacities as demand for environmentally friendly solutions across all sectors increases.

Exploring Alexander Battery Technologies

Alexander Battery Technologies works closely with clients to design and manufacture batteries that meet their unique requirements. Whether it's for the medical, automotive, or consumer electronics sector, the company's bespoke solutions ensure optimal performance and reliability.

About Us

Welcome to Alexander Battery Technologies (ABT), your trusted partner in the design and manufacture of custom lithium-ion battery pack solutions. With over 40 years of industry experience and more than 15 million battery products delivered to customers, we stand at the forefront of battery technology, delivering innovation and reliability to

FLEXIBLE SETTING OF MULTIPLE WORKING MODES

Our History

40 years of history in the custom battery pack manufacturing industry is a significant milestone that all of us at Alexander Battery Technologies are proud to be a part of. Over this time, we have delivered more than 15 million battery products to some of the world's largest and most demanding OEM businesses in Europe and North America

Alexander Technologies Europe Limited

Alexander Battery Technologies leads in designing and manufacturing high-quality custom battery packs for e-mobility applications and others such as robotics, medical and aviation. Our experience includes the design of battery packs for multiple e-mobility projects, and we can scale from low-volume projects up to 100,000 packs per week at our

Exploring Alexander Battery Technologies

Alexander Battery Technologies works closely with clients to design and manufacture batteries that meet their unique requirements. Whether it's for the medical, automotive, or consumer electronics sector, the company's ...

Alexander Battery Technologies

As a designer and manufacturer of customized battery packs and charging solutions, Alexander Battery Technologies works with numerous blue-chip organizations to provide safety critical solutions for a variety of applications such as health and personal safety, medical equipment, test and measurement, military, and fire and police to name a few

FLEXIBLE SETTING OF MULTIPLE WORKING MODES

Alexander Battery Technologies

Alexander Battery Technologies specialises in providing battery packs with unique power, size, safety circuits, enclosures, and custom connectors. In addition, we offer solutions with smBus smart BMS circuits, IP rating requirements, or intrinsic safety to meet the requirements of high-tech devices used in the defence sector.

Custom Battery Pack Manufacturer , Alexander Technologies

With 40 years of experience and state-of-the-art production capabilities, Alexander Battery Technologies supports OEMs to bring complex lithium-ion battery packs and battery chargers to market for applications including e-mobility, robotics/AGV, medical, power tools and portable and wearable devices.

Custom Battery Pack Manufacturer , Alexander Technologies

With 40 years of experience and state-of-the-art production capabilities, Alexander Battery Technologies supports OEMs to bring complex lithium-ion battery packs and battery chargers ...

Alexander Battery Technologies Completes Factory Expansion

Alexander Battery Technologies is a designer and manufacturer of custom Lithium Ion battery packs and proprietary chargers. Alexander is announcing the completion of its factory expansion in Peterlee from approximately 16,000 square feet to over 56,000 square feet.

Alexander Battery Technologies

Alexander Battery Technologies specialises in providing battery packs with unique power, size, safety circuits, enclosures, and custom connectors. In addition, we offer solutions with smBus ...

Alexander Battery Technologies Information

We develop high-performance Battery Management Systems (BMS) to optimise battery life and safety, and our custom chargers complement your battery pack for efficient charging solutions. With unmatched expertise, a strong customer focus, and stringent quality control processes, we guarantee reliable and durable battery packs.
