Atlas Copco expands battery energy storage range

Atlas Copco has added 120kVA and 150kVA capacity battery energy storage systems (BESS) to its range, extending upwards its line of canopy, portable models, which now comprises five units with power outputs from 15kVA to 150kVA.

Atlas Copco extends its energy storage systems range to provide

The innovative system, which delivers the highest power with capacity of up to 150kWh in a portable model, is built on Atlas Copco's proven lithium-ion battery technology so operators in

noise-sensitive environments such as construction sites and events, can benefit from clean, quiet energy to reduce their emissions.

The innovative system, which delivers the highest power with capacity of up to 150kWh in a portable model, is built on Atlas Copco's proven lithium-ion battery technology so operators in noise-sensitive environments ...

Energy Storage Systems

By combining an energy storage system and an integrated ECO Controller TM --Atlas Copco's Energy Management System (EMS)-- with low-emission modular assets, such as solar and other renewable sources, you can decarbonize your operations, while achieving significant fuel, energy and lifecycle savings.

Atlas Copco Expands Energy Storage Systems Portfolio

Atlas Copco Power and Flow has launched five new models of its industry-leading lithium-ion energy storage systems. The new units take modular energy storage to a new level, ...

Energy Storage Systems

Atlas Copco's Energy Storage Systems takes modular energy storage to a new level with up to 575kWh of Nominal Energy Storage Capacity. View our products today! For flexible and reliable energy-efficient operations.

Atlas Copco expands its portfolio of Energy Storage Systems

Atlas Copco Power and Flow has launched five new models of its industry-leading lithium-ion Energy Storage Systems (ESS). The new units take modular energy storage to a new level, expanding the spectrum of suitable applications, and providing customers with increased options for power.

Atlas Copco extends its energy storage systems range

The innovative system, which delivers the highest power with capacity of up to 150kWh in a portable model, is built on Atlas Copco's proven lithium-ion battery technology so operators in noise-sensitive environments such as construction sites and events, can benefit from clean, quiet energy to reduce their emissions.

Your path to clean and quiet energy

2 Atlas Copco's consolidated Energy Storage System (ESS) range is at the heart of the power supply transformation. Developed with sustainability in mind, it helps operators dramatically reduce their fuel consumption and CO2 emissions, while delivering optimal performance with reduced noise

Atlas Copco Power and Flow has launched five new models of its industry-leading lithium-ion energy storage systems. The new units take modular energy storage to a new level, expanding the spectrum of suitable applications, and providing customers with increased options for power.

APPLICATION SCENARIOS

Honduras launches tender for a battery energy storage system

Honduras announces a tender for the installation of an energy storage system with batteries (BESS) at the Amarateca substation, aiming to improve electrical supply stability. Deadline: October 23, 2024.
