Austria papago storage project

Recurrent Energy secures \$500 mn for Arizona's largest ...

Renewables developer Recurrent Energy has secured \$500 million in financing to develop a battery storage project in Arizona. The Papago Storage project will set up a 1,200 MWh battery - the largest in Arizona - and supply renewable energy to roughly 244,000 homes for four hours a day once complete.

Recurrent Energy Closes \$513M Financing for 1,200 MWh Energy Storage ...

Following construction, Recurrent Energy will own and operate Papago Storage. The project will dispatch enough power to power approximately 244,000 homes for four hours daily, enabling renewable energy to further power Arizona's growing economy. MUFG and Nord/LB acted as coordinating lead arrangers for the Papago Storage project financing.

Recurrent Energy closes \$513M financing for 1,200 MWh Arizona storage ...

Construction of the 1,200 MWh Papago Storage project is slated to commence in the third quarter of 2024, with commercial operations expected to begin in the second quarter of 2025. The project holds a 20-year tolling agreement with Arizona Public Service Company and is expected to create 200 jobs during construction.
