Electrification of Kiribati's Line Islands Powered through Solar ...

Kiritimati Island, the world's largest coral atoll and a key development hub for Kiribati with a rapidly growing population (currently roughly 8,000 people), has a dilapidated electricity micro-grid plagued by blackouts/brownouts and extending to only 40 percent of the island's population.

Why the South Pacific island Kiribati is making a big bet on solar

Kiribati's energy story highlights both the successes and pitfalls of off-grid solar projects in the South Pacific, a region that includes some of the world's poorest countries. On one hand, energy experts say such initiatives have brought power to thousands of remote villages despite enormous geographic and logistical obstacles.
