### His Majesty the King of Bahrain Inaugurates the Kingdom's ...

MANAMA, Kingdom of Bahrain, Dec. 19, 2024 (GLOBE NEWSWIRE) -- His Majesty King Hamad bin Isa Al Khalifa, King of the Kingdom of Bahrain, alongside His Royal Highness Prince Salman bin Hamad Al Khalifa, the Crown Prince and Prime Minister, inaugurated the Bapco Modernization Project (BMP), marking a defining moment in the Kingdom's energy evolution.

### Bahrain

Bahrain's energy supply comes largely from the exploitation of its domestic fossil fuels resources. The country is also a major producer and exporter of oil, petroleum products and natural gas. [View full data browser](#)

### Bahrain

Bahrain's Vision 2030 outlines measures to protect the natural environment, reduce carbon emissions, minimize pollution, and promote

sustainable energy. Bahrain is committed to designing energy efficiency policies and promoting renewable energy technologies that support Bahrain's long-term climate action and environmental protection ambitions.

### Energy Sector of Bahrain

According to the World Bank, energy demand in Bahrain will reach 19,704 GWh. This soaring growth is driven by national housing programmes, rapid population growth and the growing demand for the industrial sector, especially in aluminum smelters.

### Bahrain moves to expand both hydrocarbons and renewable ...

Under its National Renewable Energy Action Plan (NREAP), Bahrain has set a target of meeting 5% of its energy needs with renewables by 2025. In November 2021 international media reported that the country had already achieved 95% of this target.

### Renewable Energy

The Kingdom of Bahrain, through the Electricity and Water Authority, provides support for renewable energy projects. It also offers a financing program through financing banks to enable individuals and investors to start renewable energy projects.

## Energy Link International , Enlit World

## Energy Link International

Bangladesh is one of the very few Asian countries where the energy industry is fast expanding due to high economic growth in the region. Fossil fuels - coal, oil and natural gas - account for more than 80 percent of today's world energy.

## Energy & Utilities, from The Report: Bahrain 2023

Bahrain, known as the birthplace of the Arabian Peninsula's oil industry, is navigating the challenges and opportunities of the energy transition. While focusing on renewables production, energy efficiency and sustainability, the kingdom is also leveraging its ...
