

Bank of america solar container plant

Overview

ARLINGTON, VA [September 9, 2025] - Summit Ridge Energy, the nation's leading commercial solar company, today announced the closing of a \$305 million senior secured credit facility with Bank of America to support a portfolio of community solar projects across Illinois and. Bank of America today announced a 15-year, 160-megawatt agreement with Constellation, a clean energy company, to purchase power and project-specific renewable energy certificates (RECs). This agreement will help Bank of America power approximately 17 percent of its global electricity consumption. Through its partnership with GRID Alternatives, a nonprofit organization dedicated to expanding solar access to underserved communities, Bank of America recently participated in two workdays in National City, CA and San Jose, CA. These events not only brought renewable energy to deserving families.

GUELPH, ON, June 27, 2024 — Recurrent Energy, a subsidiary of Canadian Solar Inc. ("Canadian Solar") (NASDAQ: CSIQ) and a global developer, owner, and operator of solar and energy storage assets, announced today that it has signed a \$103 million tax credit facilitation agreement with Bank of. Bank of America (BofA) announced today an agreement with clean energy company Constellation for the purchase of solar power and project-specific renewable energy certificates from a new US-based solar project. Under the new 15-year, 160 MW agreement, BofA will purchase enough renewable energy to. Bank of America is expanding its investments in solar energy, installing solar panels across multiple locations through its Onsite Solar Initiative. The addition of solar power at financial centers, ATMs, office locations and other operational buildings will reduce energy costs for the bank and. The bank plans to add more than 60 solar installations over the next three years, with 15 financial centers and 10 ATMs to be equipped with panels by year's end. Bank of America is accelerating its transition to a sustainable, low-carbon economy by launching its own on-site solar initiative to.
