Renew Guernsey

Every solar panel we install, every watt of clean energy harnessed--it's a step toward a zero carbon world. From our initial consultation to the final installation, every step of our process is ...

Home

Guernsey has already started on-island renewable generation with community-scale solar arrays feeding over 350kW of renewable solar power into the grid. This means that no matter your property size, a portion of your electricity will always come from on-island solar energy. And more will come in future.

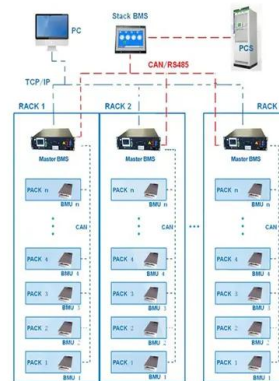

GROW Ltd community solar powers local homes

Guernsey Electricity are delighted to have worked with The Little Green Energy Company to install a vast community-scale solar array on the roof of the newly reopened GROW Ltd headquarters. The newly installed 310 ...

What Are Solar Photovoltaics?

"Solar Photovoltaic" is the formal name for these type of solar panels and are commonly abbreviated to "Solar PV" or just "PV". When electric power is generated, it goes directly into your home appliances and if you generate more than you use this gets automatically directed out to the cables in the road and used by the surrounding

Every solar panel we install, every watt of clean energy harnessed--it's a step toward a zero carbon world. From our initial consultation to the final installation, every step of our process is guided by:

Renewable Energy

The uptake of Renewables is increasing and as such needs to be regulated to the same health and safety standards throughout Guernsey, the same as any other industry. Wind power, solar, tidal, biomass, and heat pumps are a among a few technological comprise the ...

Community Solar , Guernsey Electricity

3 · Guernsey Electricity has installed some of the largest solar arrays in the Channel Islands which feed more than 600kW of renewable electricity into the grid for everyone to use. Guernsey Electricity is committed to providing an affordable and sustainable energy supply, while maintaining a responsible attitude towards the environment.

Renewables , Guernsey Electricity

Solar electricity panels, also known as photovoltaics (PV), capture the sun's energy and convert it into electricity that you can use in your home. You'll need a more or less south-facing, unshaded roof or garden area. You'll then need to think about your current electricity demand and what size of system you might need.

Community Solar , Guernsey Electricity

A fantastic investment, they are a great way to reduce your carbon footprint and make your home or property more energy efficient and eco-friendly, whilst also offering a greater financial return than savings in the bank.

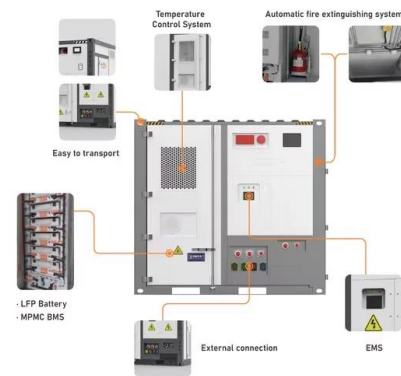

Helioterapia o baños de sol: ¿en qué consiste?

La helioterapia, fototerapia o terapia de luz es un método curativo que consiste en exponerse a luz solar o artificial (bombillas fluorescentes, luces halógenas o diodos emisores de luz), para tratar diversas afecciones.. En general, se cree que ha sido practicada desde hace más de 3500 años, dado que los antiguos egipcios empleaban los rayos solares para intentar mejorar ...
