Here is everything you need to know about Evergen

What is Evergen and what do they do? Evergen provides a software platform that enables digital optimisation of the energy supply chain, maximising the benefit from the deployment of renewable technologies. These include utility-scale assets (solar farms), C& I sites, homes and businesses with solar and storage.

The Platform

Evergen's machine learning optimisation delivers advanced individualised electricity cost-minimisation via batteries and controllable load. Electricity bills and sites are becoming more complex as markets and technology evolve, and Evergen's configurable technology allows for quick adaptation to both.
