We plan to supply the Sultanate with the latest sustainable energy storage solutions in support of national energy objectives and achieving net-zero. New innovation in energy infrastructure and storage advances economic growth while bolstering in-country value, enriching the job market, and supporting progress.

LIQUID COOLING ENERGY STORAGE SYSTEM

EMS real-time monitoring
No container design
flexible site layout

Cycle Life **≥8000** Nominal Energy **200kwh** IP Grade **IP55**

Petroleum Development Oman Plans 100 MW Solar-BESS Project

Expanding its commitment to renewable energy, Petroleum Development Oman (PDO), the Sultanate of Oman's largest oil and gas producer, has advanced plans for two wind power projects alongside a utility-scale solar PV Independent Power Project (IPP) integrated with a battery energy storage system (BESS) in Qarn Alam.

First-ever battery storage option for Oman's Ibri III solar project

MUSCAT: A new solar PV based Independent Power Project (IPP), set to come up at Ibri in Al Dhahirah Governorate, is expected to be integrated with utility-scale battery storage in a first for Oman's rapidly expanding renewable energy sector.

Reem Batteries

We offer the widest range among battery manufacturers in the world and are the largest dry charged battery manufacturer in the Middle East. We have been honored by His Majesty, the Sultan of Oman for our performance, through award of His Majesty's Cup for several years.

MoU signed to support deployment of renewable energy storage in Oman

A Memorandum of Understanding (MoU) signed recently by well-known Omani firm Nafath Renewable Energy with Takhzeen, a 100% subsidiary of publicly traded firm ONEIC, will help introduce renewable energy supply backed by battery energy storage, particularly in rural parts of the Sultanate of Oman.
