

Belgium frameless pv modules

Belgium frameless pv modules

Building integrated photovoltaics (BIPV) manufacturer for Belgium

Metsolar produces unlimited variety of tailored BIPV solar panels for Belgium and other regions of EU, that are efficient, cost competitive and have exclusive design possibilities. Our agile manufacturing provides flexibility and efficiency, therefore our BIPV module styles differentiate in size, shape, transparency and power options to fit

BIPV

Envelon manufactures solar modules in a variety of colours that are sold as frameless glass elements as a complete system. The system reduces technical complexity and builds a simple modular process that activates the building facade.

SunLion

SunLion ambitions to be a European leader in solar photovoltaic module production, differentiating from low-cost imports with (1) best-in-class energy conversion efficiency, (2) Belgian and European IP, (3) better aesthetics and (4) lower carbon footprint, while ensuring high security of supply and traceability for its customers.

EPD-IES-0017336:001

The TeraSlate® glass-glass photovoltaic module from 3S Swiss Solar Solutions is a sophisticated,

high-quality photovoltaic module for BIPV façade solutions. The powerful, frameless and aesthetically designed solar modules can be used with various substructures, offering maximum flexibility for a wide range of façade applications.

belga solar®

At Belga Solar, we offer you more than just solar panels; we provide a complete energy solution. With over 15 years of experience in the field, we are proud to be a 100% Belgian company committed to sustainability and innovation.

Solar PV Panels Supplier in Belgium with 25 Years Warranty

Tamesol's PV solar panels offer significant benefits to Belgian businesses. They provide a sustainable energy source, reducing carbon emissions and supporting Belgium's climate targets. Economically, these panels promise substantial savings on energy bills, an important consideration in the current economic landscape.

GLASS/GLASS MODULES

To meet novel demand of PV market, ViaSolis presents glass/glass solar modules, featuring high panel efficiency, excellent durability and innovative design market. Compared with standard modules, the same glass material resistance and heat dispersal is more durable in fluctuating temperatures and hot climate zones, ensuring a 50 year lifespan.

Frameless PV panel, Frameless PV solar panel

Find your frameless pv panel easily amongst the 9 products from the leading brands (First Solar, energie mobile,) on ArchiExpo, the architecture and design specialist for your professional purchases.
