## Bolivia b energy holding

---

### Bolivia

Bolivia currently has over a dozen electricity generation projects (hydroelectric, solar, combined cycle, and geothermic) and transmission line projects in progress and over 30 projects under study, including the construction of two biomass power plants. Bolivia plans to invest billions towards expanding its electric grid through 2025.

### Company Profile

## Energy profile: Bolivia

Bolivia's overall energy mix is dominated by fossil fuels, with natural gas (50%) and petroleum products (31%) supplying most of the country's energy in 2020. In 2021, Bolivia's national electricity agency ENDE announced its intention to generate up to 80% of the country's power from renewable sources by 2025.

## AXIOM Life and Health Inc
