SolarinBlue receives EUR6m for offshore solar farm

French company SolarinBlue has been awarded EUR6m (\$6.44m) by the French Government for its offshore solar project as part of the France 2030 programme. The programme, operated by the French Agency for Ecological Transition, ADEME, will support the Méga Sète pre-commercial demonstrator project for a floating solar farm in the Sète-Frontignan

DEME, Tractebel and Jan De Nul present offshore floating solar

Belgian partners DEME, Tractebel and Jan De Nul introduce SEAVOLT©, a new offshore floating photovoltaic (PV) technology. This technology is a result of joint research and development, combining the expertise of solar, environmental and offshore experts.

Can floating solar farms withstand the North Sea? , Tractebel

The MPVAqua project faces many challenges, such as developing floating structures to host the solar panels capable of withstanding high sea waves and protecting them from the rough sea environment. Extensive research is also ongoing on the impact of offshore solar farms on the marine ecosystem.

DEME, Tractebel and Jan De Nul present offshore ...

Belgian partners DEME, Tractebel and Jan De Nul introduce SEAVOLT©, a new offshore floating photovoltaic (PV) technology. This technology is a result of joint research and development, combining the ...

Climate Smart Agriculture Course

Gain expert knowledge on climate-resilient agricultural practices; Become a key driver of sustainability initiatives within your organization; Learn to implement strategies that optimize farm productivity and profitability; Stay ahead of emerging trends in climate-smart innovations

SEAVOLT© Offshore Floating PV Technology: A Game-Changer for ...

The technology, which is currently pending patent, is the result of joint research and development by solar, environmental, and offshore experts. SEAVOLT© technology has been designed to withstand harsh offshore conditions while ...

Floating Solar PV for the Sea

Swimsol provides affordable and durable marine floating & rooftop solar PV systems for the tropics, where land space is limited. We make solar energy a hassle-free experience by handling all the tech & maintenance. We work with ultra-luxury resorts and small businesses alike - always aiming to provide great service.
