Brenmiller Energy - Renewable Thermal Collaborative

Brenmiller Energy delivers scalable thermal energy storage solutions and services that allow customers to cost-effectively decarbonize their operations. Its patented bGen thermal storage ...

Tempo's Beverage Plant Adds Thermal Energy

Tempo Beverages Ltd.'s beverage production plant in Netanya, Israel, began the process of adding a thermal energy storage (TES) unit to replace its fossil fuel boilers. The TES unit will be constructed and assembled by Brenmiller Energy Ltd., a global provider of thermal energy storage solutions to industrial and utility markets.

about

Brenmiller Energy provides sustainable thermal energy storage solutions. The company was founded by Avi Brenmiller, former CEO of Siemens CSP and Solel, and a team of experts in the field of renewable energy. Since 2012 the company has developed a patented thermal energy storage technology based on storing heat using crushed volcanic rocks.

Brenmiller Energy - Renewable Thermal Collaborative

Brenmiller Energy delivers scalable thermal energy storage solutions and services that allow customers to cost-effectively decarbonize their operations. Its patented bGen thermal storage technology enables the use of renewable energy resources, as well as waste heat, to intelligently heat crushed rocks to very high temperatures.

Brenmiller inaugurates 'world-first' thermal energy storage ...

Long-duration energy storage is critical to back up renewable intermittency, decarbonise our electric grids and industrial factories, and ensure a secure energy supply. We're pleased to have provided financing for Brenmiller's gigafactory, which will manufacture thermal energy storage technologies that help the EU overcome today's
