Eaton Launches EV Charging Infrastructure & Battery Energy Storage

Backed by Eaton's operational excellence in power management technologies, Eaton's xStorage range of BESS solutions is designed to support organisations' energy transformations, ensuring power quality and resilience. It is also available in a scalable, modular design that is easy to install and quick to deploy on site.

VAT scrapped for retrofit storage

Image: Eaton. The UK government has removed the 20% for retrofitted battery energy storage systems (BESS), effective 1 February 2023. From the Spring Statement in 2022, energy saving domestic equipment such as heat pumps and roof-mounted solar have been exempt from the VAT.

Eaton and Enico partner to deploy an 'all-in-one' storage solution

Eaton and Enico have formed a partnership to help deploy the xStorage Container, a scalable, modular and fully integrated containerised energy storage solution. The solution takes advantage of Eaton's storage skills and Enico's unique module integration expertise, the duo

said.

Eaton xStorage Container Containerized energy storage system

Eaton xStorage is now available in a containerized version. This all-in-one, ready-to-use solution is the perfect choice for energy storage applications in commercial and industrial environments. The containerized configuration is a single container with a power conversion system, switchgear, racks of batteries, HVAC units and all associated
