British Virgin Islands battery for pv system

Premier encourages residents to power homes with solar energy

Premier Andrew Fahie is encouraging Virgin Islanders to get into electricity generation through solar energy and sell excess electricity to the BVI Electricity Corporation (BVIEC). Speaking at the commissioning service for a few electric shuttles that the government purchased for Road Town's Park and Ride Shuttle Service, the Premier advised

Statement By Honourable Kye Rymer

Then, with the technical specifications determined, BVIEC issued a Request For Proposals (RFP) in October 2019 for the procurement and installation of a combined solar PV and Battery Energy Storage System (BESS) on the island of Anegada for a ...

Work started on BVI's Anegada renewable energy facility

Work has begun on Anegada's Hybrid Renewable Energy & Battery Storage System in the British Virgin Islands (BVI), which, upon completion in November of this year, would harness solar energy to power the island of Anegada.

BVI Renewable Energy , British Virgin Islands , Atecbvi

ATEC BVI facilitates the transition to renewable

energy in the British Virgin Islands and the wider Caribbean region. We are local leaders and pioneers in the development of the micro-grid energy production field.

Young BVIlander powers the territory with sunshine

Striking a balance between promoting renewable energy adoption, protecting existing jobs, ensuring affordability, and incentivizing grid contributions is essential for a successful and equitable transition to solar power in the British Virgin Islands.

Government of the Virgin Islands

The British Virgin Islands Electricity Corporation (BVI EC) and Power52 executed the contract for the Anegada Hybrid Renewable Energy & Battery Storage System (BESS) Project in November 2021 in the sum of \$4,687,944.72.

Proposals submitted for solar farms in Cox Heath on Tortola

The system will comprise of one MegaWatt of solar PV panels and 4,078 kilowatt-hours of battery energy storage. The government said this project is expected to be completed during the third quarter of 2021 and is projected to reduce Anegada's dependence on fossil fuels by 95 percent.

'Long overdue' solar and storage project breaks ground in British

Construction has started on a solar plus storage project on the island of Anegada in the British Virgin Islands for a November 2023 commissioning date. The announcement by the Government of the Virgin Islands on 29 December, 2022, said the project combining solar PV and a battery energy storage system has a combined capacity of 2.1MW.
