Btm energy Australia

BTM , Breakthrough Mineral Ltd. Stock Overview (Australia: Sydney)

View real-time BTM stock price and news, along with industry-best analysis. It operates through the Australia and Africa geographical segments. Its projects include Malcoal, AAA Drilling

Development

At BTM Energy, we offer comprehensive project development solutions tailored to meet the unique needs of our clients. Typical projects may range from 100KW to 200MW in power delivery and size, and our client focus is upon commercial, industrial, and retail applications.

Clean Energy

Solar thermal energy in conjunction with photovoltaic electricity - ethically manufactured and recyclable solar panels - technologically advanced environmentally friendly heat pumps - safe and reliable lead carbon batteries - the solutions are available to all of us.

BTM Energy

Behind the Meter (BTM) refers to energy generation that occurs on-site, typically at the point of consumption and behind your electric meter connected to the local power utility. This approach allows businesses and organizations to

directly manage their energy needs and reduce reliance on the traditional utility grid.

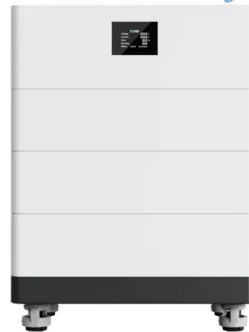

APPSS

Behind The Meter Energy's Alternative Primary Power Supply System (APPSS) is a renewable energy system that replaces your Synergy connection as your primary source of power. Clients can choose to stay connected to the grid or genset for back up purposes but not use any grid power, and not be affected by long term grid black outs.
