### Renalfa IPP starts operating Bulgaria's largest BESS project with

The Renalfa IPP project in Razlog has been claimed as the biggest project of its type in Bulgaria. It is also larger than the biggest project to come online so far in neighbouring Romania, a 6MW/24MWh BESS in that country's Constanta County, co-located with solar PV and wind generation plants.

### Hithium launches 55MWh BESS in Razlog, Bulgaria

Hithium has launched a 55 megawatt hours (MWh) battery energy storage system (BESS) project in Razlog, southwestern Bulgaria. The project, the largest in Eastern Europe, has been realised by Solarpro, a company specialising in energy generation and storage solutions across Europe.

### Hithium Launches Eastern Europe's Largest BESS Project

RAZLOG, Bulgaria--(BUSINESS WIRE)--Stationary battery manufacturer Hithium has successfully deployed the largest battery energy storage system (BESS) project in Eastern Europe to date, with a

### Hithium to provide 55MWh battery storage for project ...

Lithium-ion battery manufacturer Hithium will provide 55MWh of battery products for a solar-plus-storage project being built by EPC firm SolarPro in Bulgaria. China-based Hithium will provide the battery energy ...

### **Bulgaria 3GWh energy storage tender 4x oversubscribed**

Bulgaria's energy storage tender is open to all technologies, but most projects are likely to have proposed lithium-ion battery energy storage systems (BESS) and Malinov mentioned battery projects in his comment.

### **Bulgaria: largest BESS project online, with Hithium & Kehua tech**

A 25MW/55MWh battery energy storage system (BESS) has been commissioned in Bulgaria, Eastern Europe, by operator Renalfa IPP, using technology provided by Chinese firms Hithium and Kehua. The project is co-located with a 33MWp PV plant in southwestern Bulgarian city of Razlog and is connected to the transmission system operator ...

### **Kehua's Energy Storage Solution Propels Bulgaria's Largest BESS ...**

The Razlog BESS project sets a precedent for the future of the renewable energy sector in the region and highlights the key role that Kehua's top-of-the-line PCS innovations and Solarpro's proficiency in hybrid energy projects can play in enabling the smooth integration of solar power and energy storage.

## Monbat white paper urges Bulgarian boost for BESS business

In a white paper published on November 9, Monbat calls for government backing to spur mass deployment of advanced lead and lithium battery storage systems in Bulgaria and other European nations. The paper comes five months after Monbat revealed details of a new range of lead and lithium BESS units it intends to launch on the market for homes

## Renalfa IPP starts operating Bulgaria's largest BESS ...

The Renalfa IPP project in Razlog has been claimed as the biggest project of its type in Bulgaria. It is also larger than the biggest project to come online so far in neighbouring Romania, a 6MW/24MWh BESS in that ...

## Kehua

The 25 MW / 55 MWh utility-scale battery energy storage system (BESS) located in Razlog Municipality, Southwestern Bulgaria commenced commercial operations. This significant milestone marks the system as Bulgaria's largest BESS project to date, jointly developed by Kehua, the world-leading PV and ESS solution expert and Solarpro, the

## Bulgaria: largest BESS project online, with Hithium

A 25MW/55MWh battery energy storage system (BESS) has been commissioned in Bulgaria, Eastern Europe, by operator Renalfa IPP, using technology provided by Chinese firms Hithium and Kehua. The project is co ...

### **Hithium to provide 55MWh battery storage for project in Bulgaria**

Lithium-ion battery manufacturer Hithium will provide 55MWh of battery products for a solar-plus-storage project being built by EPC firm SolarPro in Bulgaria. China-based Hithium will provide the battery energy storage system (BESS) technology to SolarPro for the project in the southwest town of Razlog, Bulgaria, which also features 33MWp of

### **Renalfa IPP puts largest battery facility in Bulgaria into operation**

The 25 MW - 55 MWh facility in the town of Razlog in southwest Bulgaria is colocated with a 33 MW photovoltaic plant. Just half a year after the announcement of the deal, one of the first larger battery energy storage systems (BESS) in Eastern and Southeastern Europe launched regular operation in early June.
