70 percent of Armenian solar panels marked "MADE IN ARMENIA" are exported to the USA and ensure the high efficiency of receiving solar electricity, and 30 percent reach Armenian

consumers and absorb the Armenian sun. "Solis" brand inverters are used in the SOLARA solar system, which is one of the most profitable products in the world market

## SOLAR HOLDING LLC

Solar Holding LLC specializes in solar energy. We focus on importing, selling, and installing solar power systems and water heaters. We started operations on March 17, 2020, and we are known for our quality service. We use Longi panels, a top brand with no direct competitors, and our converters (inverters) are from Fox, GoodWe, and Huawei. Read

## Solar panels , EcoVille

There are solar panels on the roofs of houses almost everywhere in Armenia today. They all look very similar - rectangular, dark blue, or black. But not all solar panels have the same quality and productivity. There are two types of photovoltaic panels: Monocrystalline and Polycrystalline. Both are made of silicon.
