US Virgin Islands Embarks on a Resilient and Sustainable Energy

This visionary partnership is set to transform the energy landscape of the US Virgin Islands through the deployment of cutting-edge Battery Energy Storage Solutions (BESS) across six strategically positioned solar parks. The implications are monumental, with massive cost savings and a resounding commitment to decarbonization.

WAPA Invites Government Officials to Tour Battery Energy Storage ...

The BESS marks a significant milestone for the Authority, offering backup power during peak demand and enabling greater integration of renewable energy into the grid. By storing excess energy and releasing it when needed, the BESS helps to stabilize the grid, reduce energy costs, and minimize the likelihood of outages.

Belize and US Virgin Islands progress large-scale BESS projects

In concurrent news, the publicly-owned utility for the US Virgin Islands has announced the completion of a new BESS alongside upgrades to an existing gas power plant, the Randolph Harley Power Plant (RHPP).
