Cape Verde government launches tender for solar power plants ...

Cape Verde government launches tender for solar power plants on four islands The Special Projects Management Unit (UGPE) of the Government of Cape Verde, announced a tender (available here) for the construction and development of solar power plants in the islands of Fogo (1.3 MW), Santo Antão (1.2 MW), São Nicolau (0.4 MW) and Maio (0.4 MW).

Cape Verde Renewable Energy Atlas

The Renewable Energy Atlas includes the strategic identification of resource potential, location and analysis of the solar, wind, pumped-storage, geothermal and wave resources, and resulted in the identification of 2.600 MW of Renewable Energy potential in Cape Verde, from which Gesto studied more than 650 MW in feasible projects that would

ECREEE Celebrates Handover Of Solar Energy Project In Ribeira ...

The ECOWAS Centre for Renewable Energy and Energy Efficiency (ECREEE) has inaugurated a renewable energy project in Ribeira Alta, Cabo Verde, enhancing sustainable electricity access in the remote region. Funded by the ECOWAS Special Intervention Fund, this initiative underscores the commitment to energy equity and development in underserved areas.

Cabo Verde pg1

'Small-scale solar power systems in rural Cabo Verde islands were installed which were funded by the Global Environment Facility (GEF).9 94.2% population in the country had access to electricity as of 2020.15 'ELECTRA-SARL is the national power utility company, which is the sole generator, transmitter, and distributor of electricity

Cape Verde Launches Tender for Four Solar PV Plants

The solar power plant is expected to reduce carbon emissions by 4,600 tonnes per year and provide electricity to around 10,000 households. The launch of the tender for the four solar PV plants is another significant step towards ...

Cabo Verde: Solar PV tender launched , African Energy

State-owned Unidade de Gestao de Projetos Especiais (UGPE) published a tender on 8 March to build four solar PV plants, including a 1.3MW plant on Fogo island, a 1.2MW facility on Santo Antao island and two 0.4MW plants on the islands of Sao Nicolau and Maio, along with a storage component.

Solar energy: Projects to increase RE output in Cabo Verde

Cape Verde has inaugurated its largest solar PV plant to date, set to produce more than 10GW annually for the island archipelago nation off the West African coast. The 5MW solar PV plant on Sal Island was built by Aguas de Ponta Preta and occupies an area of eight hectares in the region of Fátima and Santa Maria.

The Renewable Energy Atlas includes the strategic identification of resource potential, location and analysis of the solar, wind, pumped-storage, geothermal and wave resources, and resulted in the identification of 2.600 MW of ...

More solar power for Cape Verde

A tender has now been published by the Cape Verdean government for the installation and commissioning of four new solar power farms. This project was originally presented in Praia on March 28, 2022. These will provide nearly 3.5 megawatts by June 2025.

Cabo Verde

To achieve its ambitious goal, the government anticipates that Cabo Verde will need more than 150MWp of new solar projects and more than 60MW of new wind farms. Partners such as Luxembourg Cooperation, German Cooperation, and the World Bank are funding energy transition initiatives.
