Low Carbon sells 6GW Netherlands BESS portfolio to S4 Energy

Castleton Commodities International LLC (CCI) subsidiary S4 Energy has acquired Netherlands battery energy storage system (BESS) development platform LC Energy, and its 6GW pipeline of projects, from developer Low Carbon.

Scatec's Release to expand Cameroon solar-plus-storage projects

Release, the distributed power arm of Norwegian renewable energy company Scatec, has unveiled plans to add 28.6MW of solar capacity and 19.2MWh of battery energy storage systems (BESS) to its

Home batteries in the Netherlands: a model for smart control, ...

Home batteries in the Netherlands: a model for smart control, potential financial yield and increase in self-consumption. / Dam, Marion. 2023. 24-25 Abstract from Second International Conference New Pathways for a Just and Inclusive Energy Transition, Groningen, Netherlands. Research output: Contribution to conference > Abstract > Academic

Home batteries drive Dutch energy storage installations

Dutch home battery purchases keep driving

battery storage installations. According to Dutch New Energy Research's Nationaal Smart Storage Trendrapport 24/25, 410 MWh of new battery capacity was installed in the Netherlands in 2023 - 1 MWh is enough to power a couple hundred homes for a day.

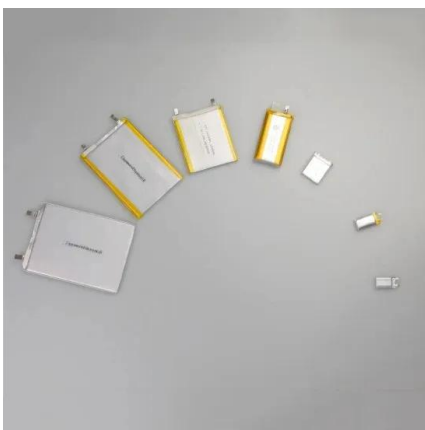

My home battery Libbi

4 · This week the Libbi home battery was installed with us. I live near Groningen in the Netherlands. I am curious about my first experiences with the Libbi. I would also like to share my experiences with other owners of the Libbi.

ACM warns of misleading home battery ads , NL Times

4 · The Netherlands Authority for Consumers and Markets (ACM) has issued a warning about misleading advertisements for home batteries. According to the regulator, promotional materials and sales pitches by providers often paint an overly optimistic picture of the financial benefits of owning a home battery.

ACM warns of misleading home battery ads , NL Times

4 · The Netherlands Authority for Consumers and Markets (ACM) has issued a warning about misleading advertisements for home batteries. According to the regulator, promotional materials and sales pitches by providers often ...

construction of lithium battery energy storage project in cameroon

Scatec commissions "pre-assembled" solar-plus-storage projects in Cameroon. The two projects total 36MW of solar PV generation capacity paired with 20MW/19MWh of battery energy storage system (BESS) technology at the cities of Maroua and Guider, in ...

Breakthrough batteries in the Netherlands and Flanders a reality

The installation of tens of thousands of home batteries in Flanders and large-scale batteries in the Netherlands and Belgium by 2023 confirms the final breakthrough of batteries. With the approaching end of net-metering, more own consumption of solar electricity is essential to shorten the payback period of solar panels, which will accelerate

African Power Platform

Description: This study examined the optimal size of an autonomous hybrid renewable energy system (HRES) for a residential application in Buea, located in the southwest region of Cameroon. Two hybrid systems, PV-Battery and PV-Battery-Diesel, have been evaluated in order to determine which was the better option.
