### Powering Canada's Future: Securing jobs, investments, and ...

6 · "Powering Canada's Future is our plan to accelerate clean power development through a historic suite of investments, permitting actions, and the finalized Clean Electricity Regulations. This is a plan that cuts energy bills for Canadians while reliably meeting rising power demand, creating more good union jobs and saving the equivalent of 55 million cars' worth of ...

## Powering Canada's Future--Canada's final Clean Electricity ...

3 · In particular, building and operating a net-zero electricity grid is expected to result in many new jobs across Canada. A recent estimate from Clean Energy Canada suggests that in a net-zero economy by 2050 scenario, jobs in the clean energy sector will grow by 2.2 million in the decades ahead (at 7% per year). Growth will be especially high in
