About Us

As Canada's leading integrated energy company, we embrace our role in shaping our shared and sustainable energy future and know that together we need to look beyond the energy needs of today and understand what is required for the future.

Solar energy

Canada generated around 4,323 gigawatt-hours of energy from solar power in 2022, which provided enough electricity to power over 470,000 typical Canadian homes. For solar thermal energy, Canada's use has increased in recent years, although it remains relatively small in terms of market penetration.

Leaders in Solar Commercial Development

SunEnergy1 has a proven development process and in-house capabilities that form the foundation for continued success. From project origination and development to power marketing

and offtake execution, our team is here to ensure engineering, procurement, and construction of your next solar project.

Brookfield agrees to acquire 510 MW solar portfolio from SunEnergy1

SunEnergy1 is vertically integrated and controls all stages of solar development and construction in-house, bringing online affordable, low-risk solar power for corporate, institutional and utility partners.

SunEnergy1 , Leaders in Solar Commercial Development

SunEnergy1 is a vertically integrated Solar Developer that controls all stages of a solar project in-house; from land acquisition, permitting, design, engineering, and construction to operations and maintenance. This model creates significant pricing and term flexibility, ensuring the best price for the corporate, institutional and utility
