REPUBLIC OF FIJI NATIONAL ENERGY POLICY

Fiji's National Energy Policy 2023-2030 is the blueprint towards a highly sustainable, inclusive, reliable, and affordable energy services sector by the close of the decade.

Fiji eyes partnerships in technology and renewable energy

The Fiji Government is ready to collaborate with genuine partners to bring cutting-edge technology and investment into Fiji's energy and infrastructure sectors. This was ...

Access to green energy

The project is a partnership between Fiji Gas, Obayashi Corporation and New Zealand-based company Halcyon under which renewable energy sources will be harnessed to generate power to meet the region's growing energy demand.

Clay Energy , Fiji

of ...

Clay Energy , Fiji

In a pioneering effort for the Pacific region, Sunergise International subsidiary Clay Energy, in collaboration with the Fiji Government and funded by the Korea International Cooperation Agency (KOICA), spearheaded the establishment of a groundbreaking 1MW grid-connected solar photovoltaic farm coupled with a battery energy storage system (BESS)

A review of Fiji's energy situation: Challenges and strategies as a

The objective of this paper is to study the past and present energy situation in Fiji in terms of the energy resources available, electricity generation and consumption and consumption of imported fossil fuel. In addition, challenges and threats prominent to Fiji as a SIDS are to be identified and strategies to overcome these are to be discussed.

Hotels join climate battle but more clarity on policies needed

In Fiji, the dire circumstances have been addressed by the enactment of acts of Parliament, policies, regulations, and strategic plans. On paper, Fiji appears to be a Pacific leader in climate change mitigation and green energy solutions, but some have questioned the

seemingly slow uptake of renewable energy projects on the ground.

Fiji

Fiji has untapped renewable energy resources such as hydro, wind, biomass, solar, and geothermal, which can be used for energy generation. Opportunities exist for replacing fossil fuels used in ground transport through expanding the use of biofuels, hybrid, and electric vehicles, and for investments in small-scale renewable energy systems.

Fiji eyes partnerships in technology and renewable energy

The Fiji Government is ready to collaborate with genuine partners to bring cutting-edge technology and investment into Fiji's energy and infrastructure sectors. This was highlighted by Permanent Secretary for Trade Shaheen Ali when he met with executives of CHINT Group Company Limited (CHINT) in Shanghai, China.
