

China southern power grid solar container cell manufacturer

Overview

The project adopts Trinasolar's Vertex N 700W series modules, with an average annual power generation capacity of up to 133 million kilowatt-hours, which continuously injects “green energy” into the beautiful scenery of the southern country. With innovation-driven development as its most important strategy and core driving force, Trinasolar has put in place a comprehensive and leading science and innovation system. Collaborating long-term with over 30 leading universities and research institutes in more than 10 countries to advance. Did you know China's renewable energy capacity surpassed 1,200 GW in 2023?

As solar and wind installations multiply, energy storage containers have become the unsung heroes ensuring stable power delivery. These industrial-scale batteries help balance supply peaks and consumption valleys - think of. With our reliable, end-to-end supply chain, deep application expertise, and broad EliteSic portfolio of market-specialized solutions, you reach your design goals with more confidence, less risk and greater control.
