### Australia OKs 3,626 MWh energy storage projects in

The remaining 1,630 MWh was allocated to Victoria, namely EnergyAustralia's Wooreen BESS, and Progress Power's Springvale Energy Hub. Authorities said the projects can run for up to four hours and can power one million homes from 2027.

### Spatial Media

EnergyAustralia were able to develop a value-add augmented reality (AR) experience using the BESS 3D model already developed for the video. The AR of the BESS is a powerful innovative tool for explaining the project opportunities and benefits to engage with stakeholders new to the renewable energy sector.

### EnergyAustralia submits application for 1.4GWh BESS ...

Utility EnergyAustralia has filed planning applications for Australia's first four-hour duration large-scale lithium battery energy storage system (BESS), in Victoria's Latrobe Valley. The energy retailer-generator ...

### EnergyAustralia submits application for 1.4GWh BESS to replace ...

Utility EnergyAustralia has filed planning applications for Australia's first four-hour duration large-scale lithium battery energy

storage system (BESS), in Victoria's Latrobe Valley. The energy retailer-generator said last week that it has submitted documents to the state's Department of Environment, Land, Water and Planning for the

### Wooreen Battery Energy Storage System (WESS)

Wooreen Battery Energy Storage System (WESS) and associated infrastructure; across two sites in Bonds Lane and Monash Way, Hazelwood North. The WESS will be rated up to 1400MWh ...

### Wooreen Battery Energy Storage System (WESS)

Wooreen Battery Energy Storage System (WESS) and associated infrastructure; across two sites in Bonds Lane and Monash Way, Hazelwood North. The WESS will be rated up to 1400MWh providing electricity back into and drawing from the grid at 350MW for a maximum of 4 hours. The WESS enables the transition of

### Australia underwrites 1GW new BESS projects

September 9, 2024: Australia's federal government confirmed on September 4 it would underwrite the construction of six new BESS projects across two of the country's states with a total storage of 1,081MW.

## EnergyAustralia seeks project partner for Wooreen Energy Storage ...

The Wooreen Energy Storage System is scheduled to be commissioned by the end of 2026, ahead of Yallourn's closure in mid-2028. The project will provide an economic ...

## A win for EnergyAustralia in energy transition

The Wooreen BESS will be located on the site of EnergyAustralia's Jeeralang Power Station, located at Hazelwood North in the Latrobe Valley. The project comprises 350 megawatts (MW) of 4-hour capacity of energy storage, equivalent to 1,400 megawatt hours (MWh) of electricity.

## CIS to fund six new BESS projects

The Wooreen 350MW energy storage system operated by EnergyAustralia in the Latrobe Valley on the existing site of the Jeeralang Power Station at Hazelwood North The Springvale Energy Hub 115MW battery energy storage system to be developed by Progress Power on the site of a former landfill in south-eastern Melbourne

## Six big batteries score federal funding to power a million homes ...

Six large-scale battery energy storage system (BESS) projects to supply the National Electricity Market (NEM), will receive financial backing through the federal government's Capacity Investment Scheme (CIS).

### Six big batteries score federal funding to power a ...

Six large-scale battery energy storage system (BESS) projects to supply the National Electricity Market (NEM), will receive financial backing through the federal government's Capacity Investment Scheme (CIS).

### A win for EnergyAustralia in energy transition

The Wooreen BESS will be located on the site of EnergyAustralia's Jeeralang Power Station, located at Hazelwood North in the Latrobe Valley. The project comprises 350 ...

### EnergyAustralia seeks project partner for Wooreen Energy ...

The Wooreen Energy Storage System is scheduled to be commissioned by the end of 2026, ahead of Yallourn's closure in mid-2028. The project will provide an economic boost for the Gippsland region while helping to secure Victoria's energy supply and enable more renewables to enter the system.
