Delta Deploys Hybrid Power Solution for Togocel

The Delta hybrid power solution was specifically designed for remote and off-grid BTS-equipment, with remote supervision capabilities tailored to the customer's requirements. Now that Togocel has implemented the Delta hybrid power system for their cell sites throughout Togo, they have already reduced OPEX costs by 60%.

UPS Battery System

Our lithium-ion battery system offers high power density in the smallest footprint to provide immediate and continuous support during power-off events to ensure a facility's continuous operations. The system is perfect for applications demanding ...

Renewable Energy Solutions

As a renewable solutions provider, Delta integrates energy generation, conversion, management and storage to optimize customers' energy use by switching grid power, renewable energy and battery power.

Products

Delta's lithium-ion battery system is an excellent energy source with a long service life for 48 V and 51.2 V applications such as telecom and datacenters for power backup. It is a compact package with high energy density to save space and weight.

Renewable Energy Solutions

The Delta hybrid power solution for Togocel is made up of a primary power source from an off-grid 4.83 kWp PV system with battery storage and a diesel genset as the backup power source. By using the PV power source and high-efficiency Delta power conversion equipment, Togocel now has a stable power supply for 200 telecom base sites and

ECOFLOW Portable Power Station DELTA 3 Plus, 1024Wh LiFePO4 Battery ...

Shop ECOFLOW Portable Power Station DELTA 3 Plus, 1024Wh LiFePO4 Battery, Fully Charges in 56 Minutes, 1800W (3600W Surge Power) Solar Generator for Home Backup, Power Outages, and Outdoor Camping.. Free delivery on eligible orders of £20 or more.
