El Salvador Emerges as Regional Leader in Renewable Energy.

Javier González, ASI's energy manager, emphasized El Salvador's remarkable achievement of covering over 70% of its energy demand with renewables, placing it among the top 20 countries globally. He underscored the country's diversified energy matrix--40% hydroelectric, 30% geothermal, with additional contributions from other renewables

Electricity sector in El Salvador

El Salvador's energy sector is largely focused on renewables. El Salvador is the largest producer of geothermal energy in Central America. Except for hydroelectric generation, which is almost totally owned and operated by the public company CEL (Comisión Hidroeléctrica del Río Lempa), the rest of the generation capacity is in private hands.
