

Energie fotovoltaica Guernsey

Energie fotovoltaica Guernsey

Solar PV Installation , Island Electric Services

Efficient and environmentally friendly, the use of solar PV or solar panels in Guernsey is on the up. A fantastic investment, they are a great way to reduce your carbon footprint and make your home or property more energy efficient and eco-friendly, whilst also offering a greater financial return than savings in the bank.

Grow's solar-panelled roof could power 40 households

Guernsey Electricity and The Little Green Energy Company have been working together on the project, with the 310 photovoltaic panels able to produce 129-kilowatt peak power. Originally, Grow Ltd had planned for a smaller, private array at its headquarters, but the idea grew to become a Guernsey Electricity-owned community solar PV scheme, to

Guernsey Renewable Energy

Situated in the Bay of St Malo off the west coast of Normandy facing the Atlantic Ocean and with some of the strongest tidal currents in the world, the Bailiwick of Guernsey is well positioned to be a major contributor to the emerging marine renewable energy market and meeting the needs of the 21st century.

Renewables , Guernsey Electricity

If you're looking to install your own renewable energy system, we'll help you design and install a system that is suitable for your needs, your property and your budget. Please note that we currently do not supply and install solar PV, but we do offer a maintenance and repair service.

Solar Photovoltaics

In Guernsey, south-facing roofs usually generate the most electricity. However, having panels on both the east and west-facing roof space can provide more balanced generation throughout the day by catching both morning and evening sunlight. Objects like trees, chimneys and dormer windows may cast a shadow on your roof during some parts of the day.

Community Solar , Guernsey Electricity

5 · In 2023 Guernsey Electricity worked in conjunction with The Little Green Energy Company to install the vast community-scale solar array at Grow Limited's newly redeveloped headquarters. The 310 photovoltaic (PV) panels will produce 129-kilowatt peak power (kWp).

Guernsey Electricity Renewables -- Renew Guernsey

The continued investment in renewables will mean higher energy costs as someone has to pay for all this. It either comes out of taxes or the consumer has to pay for it. Either way, you pay, but lower income tax is surely better, and there's an incentive to invest in solar for home and business to reduce running costs.

Home , Guernsey Electricity

Guernsey Electricity's long-term strategy is for an energy system that supports renewables and reduces the reliance on fossil fuels to use the power station for emergency generation only. See for yourself the challenging road ahead.
