

# Energobattery Slovakia

Warranty  
**10 years**

LiFePO<sub>4</sub>

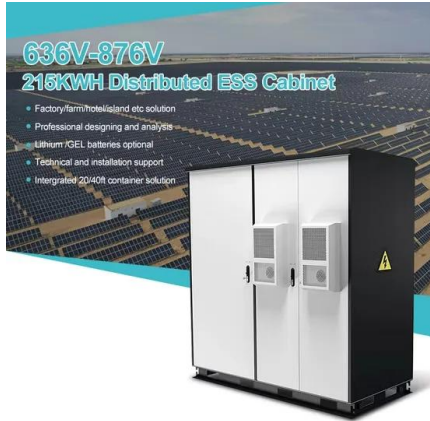

Intelligent BMS

Wide Temp:  
-20°C to 55°C

## Energobattery Slovakia

### Embraco Slovakia reduces their carbon footprint thanks to an

In cooperation with the energy supplier Slovenské elektrárne - energetické služby, s.r.o., we put into operation our second largest project in Slovakia - a smart battery storage brAI by FUERGY with a capacity of 1,296 kWh in the Embraco Slovakia s.r.o. area in Spisská Nová Ves.

### Welcome , FUERGY

FUERGY is a Slovak technology company that specializes in energy optimization and installed the largest smart battery systems in the V4 region. We have developed our own, highly scalable smart battery storage system called brAI and the software platform mosAIc, on which we build applications for different types of energy management.

### SLOVAK BATTERY ALLIANCE

Slovak battery alliance - main activities the Slovak Battery Alliance (SBaA) is an independent group composed of legal entities and operate as an industry cluster executive platform for the cooperation among the public and private sectors, innovators, the academic community and financial institutions main aim is to participate in the battery

### Second-life battery storage

Our Second-life battery storage systems project

is one of 42 unique European projects that will bring the EU closer to achieving clean mobility while helping it its energy storage ambitions. Developing renewable energy for all

### Second-life battery storage

Nás projekt Second-life battery storage systems patrí medzi 42 unikátnych európskych projektov, ktoré EÚ posunú blížšie k dosiahnutiu cistej mobility a zároveň pomáhajú naplnat ambície v oblasti uskladňovania energie. Rozvoj obnoviteľných zdrojov energie pre všetkých

### Wattstor and ENERGE Spearhead Grid Innovation with ...

In a landmark achievement, Wattstor and ENERGE have successfully implemented a cutting-edge 1.5 MW / 1.6 MWh Battery Energy Storage System (BESS) for ancillary services in Slovakia, enhancing the country's grid stability and fostering innovation.

### GreenBat s.r.o.

The company's strategy is to design and operate various types of battery storage installations and photovoltaic power plants from modular to container solutions and to contribute to the faster integration of renewable energy sources and to ensuring the flexibility of the energy system.

## Home

Our years of experience on the research, development and production of battery-based storage systems, which are the natural evolution in the energy sector. We are convinced that by reusing used batteries we will achieve an energy-efficient future without fossil fuels.

## Welcome , FUERGY
