### Sales & Services Page

EnerSys has an extensive range of services to ensure that you get the best performance from your battery and charger investment. From design and installation to maintenance and recycling, you can count on the expertise of our engineers and service technicians.

### EnerSys Genesis NP Series Batteries Datasheet

Genesis® NP batteries feature heavy duty thick lead calcium grids for years of dependable performance. The high energy density design, factory sealed case and leak proof construction ensures that these rechargeable sealed lead acid batteries are extremely reliable and virtually maintenance-free.

### Genesis XE

Genesis ® XE batteries are manufactured with Thin Plate Pure Lead (TPPL) technology, packing enormous power in a smaller footprint, making them ideal for custom applications where space is of the utmost importance. Genesis XE batteries are found in alternative energy applications such as solar and wind power, and Hybrid Electric Vehicles (HEV).

### Genesis® EP

Genesis EP batteries are found in applications as diverse as electronics, medical equipment, telecommunications, renewable energy, computer backup and Uninterruptible Power Supply (UPS) applications. In addition to its superior performance characteristics, the Genesis EP battery non-spillable design allows for mounting in any position (except

### EnerSys

When readiness and reliability are paramount, EnerSys® batteries are hard at work in the world's most critical and demanding applications. High performance, low maintenance and long life are the hallmarks of EnerSys products. Power ready to meet the challenge wherever and whenever the mission requires.

## **Genesis EP Batteries , PRIMARY BATTERIES DRY & WET , EnerSys**

Since its introduction in the early 1990's, the Genesis EP thin plate pure lead (TPPL) battery has established itself as a premium high performance battery suitable for a wide range of demanding applications.
