ENERGY STORAGE SYSTEM

Product Model
HJ-ESS-215A(100KW/215KWh)
HJ-ESS-115A(50KW 115KWh)

Dimensions
1600*1280*2200mm
1600*1200*2000mm

Rated Battery Capacity
215KWH/115KWH

Battery Cooling Method
Air Cooled/Liquid Cooled

Estonia bess project manager

Estonia: first grid-scale BESS to be replicated in Baltics/Poland

We hear from utility Eesti Energia about its 25MW/50MWh BESS project in Estonia, including what it hopes to achieve with the project and why it needed a second ...

Estonia's first grid-scale battery storage project to 'launch next ...

The 550MW/6GWh PHES plant, in development by Estonia-based holding company Alexela and two co-owners of the project, will play into the Nord Pool Spot power ...

Project Development Manager (BESS)

Are you a BESS expert / Project Manager with experience in renewable energy project scoping, Analysis, Technical Due Diligence and delivery, looking to be part of newly created, cutting-edge, well-funded and future focused energy group.

Estonia grid-scale BESS to come online in 2025 with LG ...

Eesti Energi has completed the procurement for its 26.5MW/51MWh BESS, the first of that scale in Estonia, with LG Energy Solution among the successful parties. The battery energy storage

system (BESS) will ...

Estonia's first grid-scale BESS to come online in 2025, ...

Estonia is targeting an exit from electricity production from shale gas and a 40% renewable energy mix by 2030. The BESS is the first large-scale project in the country but smaller-scale projects are being supported through a ...

Large-scale batteries progress ahead of Baltic-Russia decoupling

Bids have been received by Latvia's grid operator AST for an 80MW/160MWh BESS project while developers Corsica Sole and Everon will build a 200MW system in Estonia, as the Baltic region prepares to decouple from Russia's electricity system in 2025.

Eesti Energia to install 25-MW/50-MWh battery in Estonia

Estonia-based energy company Eesti Energia plans to install what will be its home country's first grid-scale battery energy storage system (BESS), of 25 MW/50 MWh in size.

Estonia's first grid-scale battery storage project to 'launch next ...

The 550MW/6GWh PHES plant, in development by Estonia-based holding company Alexela and two co-owners of the project, will play into the Nord Pool Spot power market.

Baltic Storage Platform breaks ground on 400MWh BESS in Estonia

Baltic Storage Platform, a joint venture (JV), has broken ground on two new 200MW/400MWh battery energy storage systems (BESS) in Estonia. The JV between Estonian energy company Evecon, French solar PV developer Corsica Sole, and asset manager Mirova will develop the 2-hour duration systems, with plans for the first to be commissioned in 2025

BESS Project Manager

As a Project Manager for Battery Energy Storage Systems (BESS) projects, you will oversee the development, execution, and successful completion of BESS installations, from initial planning through commissioning.

12.8V6Ah

- Nominal voltage (V):12.8
- Nominal capacity (Ah):6
- Rated energy (Wh):76.8
- Maximum charging voltage (V):14.6
- Maximum charging current (A):6
- Floating charge voltage (V):13.6-13.8
- Maximum continuous discharge current (A):10
- Maximum peak discharge current @10 seconds (A):20
- Maximum load power (W):100
- Discharge cut-off voltage (V):10.8
- Charging temperature (°C):0-+50
- Discharge temperature (°C):-20-+60
- Working humidity: <95% R.H (non condensing)
- Number of cycles (25 °C, 0.5c, 100%dod): >2000
- Cell combination mode: 32700-4x1p
- Terminal specification: T2 (6.3mm)
- Protection grade: IP65
- Overall dimension (mm):90*70*107mm
- Reference weight (kg):0.7
- Certification: un38.3/msds

Home Energy Storage (Stackble system)

- High Efficiency
- Easy installation
- Safe and Reliable
- Perfect Compatibility

- Product Introduction**
- Scalable from 10kWh to 50kWh
 - Self-Consumption Optimization
 - Integrated with inverter to avoid the compatibility problem
 - LFP battery, safest and long cycle life
 - Back-to-back design efficiency installation
 - Capable of High-Powered
 - Emergency-Backup and Off-Grid Function

Project Development Manager (BESS)

Are you a BESS expert / Project Manager with experience in renewable energy project scoping, Analysis, Technical Due Diligence and delivery, looking to be part of newly created, cutting ...

260MW of BESS projects progress in Estonia and Latvia ...

In concurrent news, developers Evecon and Corsica Sole announced they would be building two BESS projects in Estonia totalling 200MW, in a news report posted on LinkedIn by Evecon, which is based there.

Baltic Storage Platform breaks ground on 400MWh ...

Baltic Storage Platform, a joint venture (JV), has broken ground on two new 200MW/400MWh battery energy storage systems (BESS) in Estonia. The JV between Estonian energy company Evecon, French solar PV ...

Estonia: first grid-scale BESS to be replicated in Baltics/Poland

We hear from utility Eesti Energia about its 25MW/50MWh BESS project in Estonia, including what it hopes to achieve with the project and why it needed a second procurement to launch the project. State-owned Eesti Energia signed an agreement with lithium-ion OEM LG Energy Solution for the project at its Auvere industrial power plant complex, as

Senior Project Manager

Ultra high-performance BESS with 1,000+ R&D professionals. Rapid growth in the US with a world-class team and plans to build a US factory soon. Flexible, friendly culture with good benefits. The role: Oversee the full BESS project execution lifecycle taking ownership for the project and managing the customer.

260MW of BESS projects progress in Estonia and Latvia ahead of ...

In concurrent news, developers Evecon and Corsica Sole announced they would be building two BESS projects in Estonia totalling 200MW, in a news report posted on LinkedIn by Evecon, which is based there.
