### Solarstone Opens Europe's Largest Factory for BIPV Production

In a groundbreaking move, Estonian solar energy company Solarstone unveils its state-of-the-art Building-Integrated Photovoltaics (BIPV) factory, establishing itself as the largest of its kind in Europe by production capacity. The factory has the capacity to assemble 13,000 integrated solar panels per month.

### Solar energy production in Estonia and Poland

Our solar parks are located in Estonia and Poland. We entered the solar power market in 2017, establishing a solar power station on the roof of the Estonia dairy farm in Järvamaa, where we installed 644 solar panels. We currently produce solar energy in Estonia and Poland, where we have a total of 43 solar parks. Our solar parks contain over

### Estonia's CleanTech company Solarstone produces one of a kind solar ...

Their first of its kind product is called Click-on, which makes it possible to render essentially any solar panel into 2-in-1 weatherproof roofing material without any additional sublayer. Click-on is universal and can be used for residential and commercial roofs ...
