

# Evyon battery Belarus

## Evyon battery Belarus

---

### Planet-friendly battery energy storage systems

Evyon provides a modular DC battery energy storage solution based on repurposed EV batteries for system integrators to integrate into a range of solutions. Scalable to fit your needs. Online-connected to maximize safety, performance, and longevity.

### About Evyon

Evyon exists to maximize the value of every battery for a fully renewable future for everyone. This we do by combining cutting-edge battery intelligence with the industrialization of repurposing, making repurposed battery systems both ...

### Our mission

Evyon develops novel technologies to repurpose second-life EV batteries into modular battery energy storage systems in a streamlined, safe, and cost-effective way. Using second-life EV batteries, Evyon estimates its battery systems to ...

### Free download! Evyon Industrial Energy Storage

Evyon Industrial is a battery solution for commercial & industrial applications, scalable to your needs. European design, build, and support. Brand new Tier 1 automotive batteries. 24/7

cloud monitoring for maximum safety, performance, and lifetime. Evyon provides automotive-quality energy storage systems based on repurposed battery modules

## Volta-X

Evyon's Industrial Battery System is scalable to meet customers' specific demands for voltage range and energy storage capacity. The DC strings are configurable from 66-165kWh per string. In addition, the product offers industry-leading energy density, comprises only high-quality components and is made in Europe.

## Evyon breathes sustainable new life into spent EV batteries

Evyon repurposes second-life EV batteries into green battery systems for residential and commercial use. The battery systems can be used for a wide range of stationary storage applications, from peak shaving to storage of solar cell energy for self-consumption.

## Product

Through our Battery Cloud Platform, we use state-of-the-art battery and data science capabilities to maximize the safety, performance, and lifetime of your battery system. We also provide over-the-air (OTA) updates to keep your system up-to-date at all times, making sure your system stays up to date with the latest developments in battery

## Evyon

Evyon offers a modular DC battery energy storage system tailored for integration into diverse solutions by system integrators. These systems are scalable, online-connected for peak safety and performance, and designed for longevity, showing Evyon's commitment to ...

## Evyon

Evyon maximizes the value of second-life EV batteries by repurposing them into high-quality energy storage systems in a streamlined, safe, and cost-effective way. We develop novel technologies for reassembly and operations to convert ...

## Evyon

Evyon delivers high-quality battery energy storage systems based on repurposed EV batteries and novel technologies for reassembly. Evyon's approach converts usable second life EV batteries into modular plug-and-play battery storage ...

## Evyon

Evyon maximizes the value of second-life EV batteries by repurposing them into high-quality energy storage systems in a streamlined, safe, and cost-effective way. We develop novel technologies for reassembly and operations to convert usable second-life EV batteries into modular plug-and-play battery storage systems.

## Free download! Evyon Industrial Energy Storage

Evyon Industrial is a battery solution for commercial & industrial applications, scalable to your needs. European design, build, and support. Brand new Tier 1 automotive batteries. 24/7 ...

### Our mission

Evyon develops novel technologies to repurpose second-life EV batteries into modular battery energy storage systems in a streamlined, safe, and cost-effective way. Using second-life EV batteries, Evyon estimates its battery systems to have an up to 95% lower carbon footprint compared to systems based on new battery cells.

### Evyon breathes sustainable new life into spent EV ...

Evyon repurposes second-life EV batteries into green battery systems for residential and commercial use. The battery systems can be used for a wide range of stationary storage applications, from peak shaving to storage ...

### Evyon

Evyon delivers high-quality battery energy storage systems based on repurposed EV batteries and novel technologies for reassembly. Evyon's approach converts usable second life EV batteries into modular plug-and-play battery storage systems that ...

## About Evyon

Evyon exists to maximize the value of every battery for a fully renewable future for everyone. This we do by combining cutting-edge battery intelligence with the industrialization of repurposing, making repurposed battery systems both financially and environmentally sustainable.
