UK support scheme for long-duration energy storage proposed

LCP Delta and Regen provided the analysis for the Department for Energy Security and Net Zero's (DESNZ) 'Long duration electricity storage consultation', which was published yesterday (9 January) and is open for comment until 5 March, 2024.

Skip rates to improve under NESO

The Battery Storage Coalition's letter criticised skip rates--the frequency with which the system operator skips over batteries to use more expensive methods in the Balancing Mechanism (BM)--claiming that skipping ...

'Sophisticated strategies' required as battery

Following a 71% decline in average profits for Britain's battery storage market, a new report by LCP Delta has urged investors to consider more "sophisticated strategies" to increase revenue.

Skip rates to improve under NESO

The Battery Storage Coalition's letter criticised skip rates--the frequency with which the system operator skips over batteries to use more expensive methods in the Balancing Mechanism (BM)--claiming that skipping batteries holds back investment and drives up ...
