### First Solar IPP in Sierra Leone Attains Commercialisation

The 5 MW Solar Power plant is the first phase of a 25MW solar PV power project in Yamandu, near Bo town in Sierra Leone. It will add approximately 15% to Sierra Leone's total electricity generation capacity.

### Sierra Leone: \$52m for large-scale grid-connected solar power IPP

Three Development Finance Institutions and a renewable fund manager have announced a co-investment of more than \$52 million for Planet Solar, a greenfield 50MW solar power project in

Sierra Leone. Planet Solar will be the first large-scale grid-connected solar Independent Power Producer (IPP) project, driving a diversified approach to

### Project detail

Planet Solar is the first utility scale solar power project and the first Independent Power Producer (IPP) in Sierra Leone. The project aims to achieve the realization of 50 MW of renewable energy in a country with a huge gap between electricity demand and supply.

### First Solar, Inc., Investor Relations

Founded in 1999, First Solar is a leading American solar technology company and global provider of responsibly produced eco-efficient solar modules advancing the fight against climate change. The company is unique among the world's ten largest solar manufacturers for being the only US-headquartered company and not manufacturing in China.

### First solar IPP in Sierra Leone reaches commercialisation

Sierra Leone's first independent power project - a 5MW solar farm which is the first phase of a larger project - has reached commercialisation. The 5MW solar power projected is owned by Serengeti Energy, a private company backed by shareholders KfW, Norfund, NDF, Proparco, Stoa and Swedfund.
