How much does it cost you to use your appliances? Our appliance and electronic energy use calculator allows you to estimate your annual energy use and cost to operate specific products. Use our calculator [here](#).

Is Guernsey's grid ready for the electric future?

Guernsey's on-Island power grid is the infrastructure that is key to delivering the low carbon energy future for Guernsey and every customer's growing electricity needs. Guernsey Electricity continues to invest in, replace and upgrade the grid to meet these changing needs.

Renewables for all , Guernsey Electricity

Guernsey Electricity's long-term strategy is for an energy system that supports renewables and reduces the reliance on fossil fuels to use the power station for emergency generation only. With the islands 'Peak' electricity demand expected to reach around 150MW by 2050 - the Electricity Strategy will define how we power businesses, keep

the UK with over 80 gyms, most of which are locally owned. By combining the power of a national brand with the passion of a local fitness gym owner, énergie is able to offer a gym experience ...

Energy

Access to energy is a critical requirement which enables us to undertake daily activities such as using the internet, cooking, working, and staying warm. In Guernsey, we currently rely on fossil-fuel based systems of energy production and consumption and operate a thermal power station.
