Inventus Power

Inventus Power specializes in engineering and manufacturing custom battery & power solutions for complex applications. We also offer proprietary lithium-ion battery packs, power supplies, chargers, and accessories for specific industry needs.

Inventus Battery Energy Technologies , The Company Check

Inventus Battery Energy Technologies Private Limited, established in 2020, is engaged in the Consumer Electronics & Durables sector in Chennai. Explore their Corporate Structure, Financials, and More.

Inventus Battery Energy Technologies , The Company Check

Inventus Battery Energy Technologies Private Limited, established in 2020, is engaged in the Consumer Electronics & Durables sector in Chennai. Explore their Corporate ...

Inventus Battery Energy Technologies Pvt Ltd - The One-Stop

...

Inventus Battery Energy (IBE(TM)) Technologies (P) Ltd is a unique startup specializing in new energy battery technologies, including Cathode-

Active Materials (LFP, LMFP, NMC, and LNMO CAMs), LiPF6 electrolyte manufacturing know-how, and ACC manufacturing technology formulations (LFP and NMC chemistries).

Dr. S.R.S. PRABAHARAN

He has several granted patents in the filed of energy storage including solid state batteries. · Experience: INVENTUS BATTERY ENERGY TECHNOLOGIES · Education: Madurai Kamaraj University ·

Solid State Battery Technology Development Centre - Inventus ...

Of late, increasing the energy density and safety of batteries has become one of the major concerns of the battery community driven by the ever-growing markets for battery-powered ...

Battery Engineering & Design

By partnering with Inventus Power, you can leverage our technology expertise, 100% in-house engineering capabilities, and robust product development process to overcome your biggest power challenge. Whether you're adopting new ...

Li-ion Battery Systems for Motive Applications

Discover how Inventus Power's xEV solutions provide integrated, powerful and safe lithium-ion (Li-ion) battery systems for electric vehicles. Our tailored solutions ensure compatibility and ...

Efficient Higher Revenue

- Max. Efficiency 97.5%
- Max. PV Input Voltage 600V
- 150% Peak Output Power
- 2 MWp Trackers, 150% DC Input Overvoltage
- Max. PV Input Current 15A, Compatible with High Power Modules

Intelligent Simple O&M

- IP65 Protection Degree: support outdoor installation
- Smart ITC Curve Diagnosis Function: locate PV string faults accurately and automatically detect faults
- DC & AC Type II SPD: prevent lightning damage
- Battery Reverse Connection Protection

Flexible Abundant Configuration

- Plug & Play, UPS Switching Under 10ms
- Compatible with Lead Acid and Lithium Batteries
- Max. 6 units Inverters Parallel
- AFC Function (Optional): when an arc fault is detected the inverter immediately stops operation

Management - Inventus Battery Energy Technologies ...

He is recognized as a leading technocrat in energy storage technologies, including Li-ion, Na-ion, supercapacitors, hybrid LIC/LIB cells (Capattery), and polymer electrolytes.

Battery Engineering & Design

By partnering with Inventus Power, you can leverage our technology expertise, 100% in-house engineering capabilities, and robust product development process to overcome your biggest power challenge. Whether you're adopting new battery chemistries or transitioning from gas-powered engines, we have the expertise and proven track record to support your journey.

Solid State Battery Technology Development Centre - Inventus Battery

Of late, increasing the energy density and safety of batteries has become one of the major concerns of the battery community driven by the ever-growing markets for battery-powered electric vehicles. Hence, industry players (both battery companies and passenger vehicle producers) are hurried to pursue high energy density (Wh/kg) and lower costs

Inventus launches new range of batteries for motive and stationary

"With our PROformance platform, we are helping customers replace their lead-acid battery systems with a safe, high-performing, fast charging, maintenance-free solution. ...

- LiFePO₄ Battery, safety
- Wide temperature: -20~55°C
- Modular design, easy to expand
- The heating function is optional
- Intelligent BMS
- Cycle Life: > 6000
- Warranty: 10 years

He is recognized as a leading technocrat in energy storage technologies, including Li-ion, Na-ion, supercapacitors, hybrid LIC/LIB cells (Capattery), and polymer electrolytes.

Inventus launches new range of batteries for motive and ...

"With our PROformance platform, we are helping customers replace their lead-acid battery systems with a safe, high-performing, fast charging, maintenance-free solution. These batteries also enable full power system conversion for OEMs who are looking to electrify their equipment completely from internal combustion engine to battery power."

HEAT DISSIPATION

Cold aisle containment, making optimal refrigeration effect:

Li-ion Battery Systems for Motive Applications

Discover how Inventus Power's xEV solutions provide integrated, powerful and safe lithium-ion (Li-ion) battery systems for electric vehicles. Our tailored solutions ensure compatibility and reliability for golf carts, material handling equipment, autonomous robots and more.
