The rules for solar panel kits in France and potential savings

As electricity prices continue to soar in France - up 60% in four years - more people are turning towards solar panel kits, which promise to help users save on energy costs and installation prices. The estimated extra cost of electricity in 2024, compared to 2020, is EUR540 per household per year.

Does the Installation of Solar Panels Make Sense?

Financial Incentives for Solar Panels. Since 1st January 2014 there are no longer any tax credits available for the installation of photovoltaic solar panels. Nevertheless, in France, as in many other countries, there are incentives in place for property owners to sell electricity back into the grid at preferential prices.

Off-grid et solaire

Dans un système reposant sur l'off-grid, toute l'énergie produite est redirigée vers la maison équipée. Le système électrique ainsi créé alimente directement l'habitation et, en cas de surplus de production d'énergie, celle-ci est stockée dans des batteries solaires qui permettent d'alimenter les équipements électriques

France--Namkoo 100kw Off Grid Solar System For Vineyard

100kw off-grid solar power provides 24-hour electricity for a French vineyard Power generation at two nuclear power plants along the Rhône in eastern France is expected to be curtailed due to forecast high temperatures, EDF said in recent days.
