Renewable energy in French Guiana: Prospects towards a ...

French Guiana has its own pluriannual energy

programming. With an objective of energy autonomy set on the 2030 horizon, they have to accelerate the large-scale clean energy

EDF Renewables commissions a new solar farm with storage in French Guiana

This new power plant represents another step forward for the energy transition underway in the territory and will help French Guiana meet its goal of energy self-sufficiency by 2030. The installation will also bring EDF closer to its Solar Plan's objectives of making it one of France's leading players of solar energy with a 30% market share by

Voltalia turns on 10.6MWh battery storage in French Guiana

French renewable energy company Voltalia has completed the expansion of a renewable energy plant in French Guiana, adding a battery energy storage system (BESS) of 10.6MWh. The Paris-listed company announced the commissioning of the Sable Blanc solar-plus-storage project yesterday (10 May).

France releases renewable energy plan for French ...

France's Ministry of the Environment, Energy and the Sea (MEEM) announced that the new energy strategy for French Guiana (Programmation Pluriannuelle de l'Energie - PPE), which aims at

Solar focus in French Guiana energy programme, renewables given grid

French energy minister Ségolène Royal has signed a decree establishing an energy programme (PPE) for French Guiana, that aims to use solar, biomass and hydro to reach 85% renewables

France releases renewable energy plan for French Guiana, solar ...

France's Ministry of the Environment, Energy and the Sea (MEEM) announced that the new energy strategy for French Guiana (Programmation Pluriannuelle de l'Energie - PPE), which aims at

French Guiana plans 140 MWh renewable energy storage system

HDF Energy's Renewstable solution combines a 55 MW solar farm with what the company says is the world's largest renewable energy storage solution, to provide a ground ...

Renewable energy in French Guiana: Prospects towards a ...

The lack of access to energy in the inland areas is a key issue at the heart of French Guiana's pluriannual energy programming. With an electrification rate of dwellings four times lower

Renewable Energy in French Guiana: Prospects towards a ...

According to the French Energy Transition for Green Growth Act, the main objective is to develop renewable and clean energy in order to achieve energy self-sufficiency for the entire territory. ...

Renewables selected to power Europe's French Guiana Spaceport

Solar PV and biomass are to be deployed to reduce energy costs and 'green' Europe's Spaceport at Kourou in French Guiana. The introduction of solar fields of up to 10MW peak is planned by the start of 2023, followed by two biomass units the same year with the intention of utilising the waste heat for cooling buildings.
