This paper aims to make an inventory of the energy situation in French Guiana, identify the challenges restricting the widespread use of renewable energy and propose some

recommendations

Project

CEOG is an innovative multi-megawatt power plant designed to produce reliable and clean electricity. CEOG will provide cheaper and firm power all year long, day and night, to 10 000 homes in Western Guiana. Combining a photovoltaic plant and mass storage of energy in the form of hydrogen, CEOG is the alternative to a classic diesel power plant.

Voltalia turns on 10.6MWh battery storage in French Guiana

French renewable energy company Voltalia has completed the expansion of a renewable energy plant in French Guiana, adding a battery energy storage system (BESS) of 10.6MWh. The Paris-listed company announced the commissioning of the Sable Blanc solar-plus-storage project yesterday (10 May).

Solar focus in French Guiana energy programme, ...

French energy minister Ségolène Royal has signed a decree establishing an energy programme (PPE) for French Guiana, that aims to use solar, biomass and hydro to reach 85% renewables

Voltalia breaks ground on 5-MW solar-plus-storage plant in French Guiana

French renewable power producer Voltalia SA (EPA:VL TSA) has started the construction works on a 5-MW solar farm combined with a 10.6-MWh lithium-ion battery storage unit in French Guiana. Named Sable Blanc, the photovoltaic (PV) plant should be able to generate 7,430 MWh annually, enough to meet the electrical demands of 3,090 people in Western

Solar focus in French Guiana energy programme, renewables

French energy minister Ségolène Royal has signed a decree establishing an energy programme (PPE) for French Guiana, that aims to use solar, biomass and hydro to reach 85% renewables

Voltalia energises solar-storage park in French Guiana

Renewable power plants operator Voltalia SA (EPA:VL TSA) on Thursday announced the commissioning of its 5-MW Parc Sable Blanc solar farm with an integrated storage system in French Guiana. The Paris-based company secured the project in a government tender for solar projects

in non-interconnected zones (ZNIs) in May 2021.

Project

CEOG is an innovative multi-megawatt power plant designed to produce reliable and clean electricity. CEOG will provide cheaper and firm power all year long, day and night, to 10 000 homes in Western Guiana. Combining a photovoltaic ...

EDF Renewables commissions a new solar farm with storage in French Guiana

Together, the two facilities possess a combined capacity of 10 MW, generating sufficient energy to cover the annual electricity needs of close to 3,600 homes in French Guiana. In French Guiana, EDF now has eight solar facilities in service, including three that are equipped with battery storage systems.

Voltalia energises solar-storage park in French Guiana
