French Southern Territories cheap solar generators

French island tenders push down solar-plus-storage prices by ...

Tenders for solar-plus-storage projects on French island territories including Corsica, Guadeloupe and Martinique have resulted in winning bids often 40% lower than the victors of previous reverse auctions. France's ministry of ecology, sustainable development and energy released results of two tenders late last week.

Akuo Storage in Islands

France added 'record' 4GW of solar in 2023

French independent power producer (IPP) Neoen has secured AU\$1.4 billion (US\$890 million) in

capital to fuel new solar PV, wind and energy storage projects in Australia.

Photovoltaic panel installation: list of regional grants

In response to ecological challenges and the need to reduce greenhouse gas emissions, the French government has set up a number of national and regional subsidies. Beev invites you to take a closer look at these subsidies, to help you prepare for your energy transition with peace of mind!

France's island territories get solar-plus-storage at average ...

The cost of solar energy paired with battery storage on France's island territories has fallen yet again, as the European country awarded contracts to winning bidders in its latest tender process. Results have been announced for the third annual edition of France's tenders for projects enabling the self-consumption of new renewable energy

Smart islands tech brings renewable future to French overseas territory

The French overseas territory of New Caledonia has hailed the switch-on of a 16MWp solar farm, with battery energy storage to be later attached, and another standalone 5MWh battery project as significant steps towards '100% renewable

energy' targets.

The rules for solar panel kits in France and potential savings

As electricity prices continue to soar in France - up 60% in four years - more people are turning towards solar panel kits, which promise to help users save on energy costs and installation prices. The estimated extra cost of electricity in 2024, compared to 2020, is EUR540 per household per year.

Investing in sustainable solar panel systems on french farms

Sungen is more than just a solar project--it's a bold vision for the future of energy in France. Spearheaded and funded by Octopus Energy Generation, Sungen is all about making renewable energy more accessible. We've started by funding the construction of over 100 rooftop solar systems across France.
