Fulcrum

We partner with governments and companies to develop the necessary gas infrastructure to produce and sell natural gas and LNG, which we believe is a crucial resource to deliver reliable energy to the world while transitioning to more sustainable energy sources.

Christmas Island Phosphates

Christmas Island Phosphates or known on Christmas Island as CIP, commenced its operations in 1990. It mines and processes rock phosphate on Christmas Island. CIP is a significant success story for many reasons.

Jobs

Our customers rely on Fulcrum to ensure safety and quality, stay compliant, protect property and secure assets, maintain and enhance existing infrastructure, and keep new infrastructure projects on-time and on-budget. Fulcrum is proudly developed by Spatial Networks, Inc.

Why the Lessons of the Fulcrum Fiasco must not be Wasted

Fulcrum BioEnergy shut down its flagship waste-to-fuel plant in May. Alex Howard looks at the implications for the waste gasification industry, and how other first-of-a-kind developers can reassure investors moving forward

CI Maintenance Services; PRL Shipping; Investing into the Indian Ocean Territories. Indian Ocean Stevedores; Cocos Cottages; Developing Christmas Island; Our Community, Our Future

Waste-to-Fuel Company That Raised \$1 Billion Verges on Collapse

Fulcrum was the first company to take shredded landfill waste, gasify it and then convert it into a liquid fuel. While technically challenging, garbage-to-fuels has long been tantalizing. That's because household waste is abundant and cheap, and it doesn't require additional acres for

growing energy crops.
