## Gabon smart energy company

### Gabon Power Company

Gabon Power Company (GPC) is developing sustainable energy for Gabon. The company researches, designs, builds and operates electricity and water production infrastructure. Established in 2015 through the Gabonese Strategic Investment Fund, GPC now has a variety of power generation projects currently under development.

### GABON: Solen launches construction of the 120

The launch of the Ayémé Plaine solar photovoltaic power plant in Gabon comes almost six months after the signing of the related framework agreement (in March 2022) between the Gabonese Minister of Energy and Hydraulic Resources, Alain-Claude Bilie-By-Nze, and Praveen Pai, Solen's Operations Manager.

### ESS

### Energy in Gabon

Energy in Gabon comes from two main sources, fossil-fuels and hydroelectricity. Gabon also relies heavily on oil for its export revenues, exporting both crude oil and petroleum. In terms its oil reserves, the country is one of the richest in sub-Saharan Africa, ranking 5th after Nigeria, Angola, Sudan, South Sudan, and Uganda. [1]

### ENERGY PROFILE Gabon

developing areas. Energy self-sufficiency has been defined as total primary energy production divided by total primary energy supply. Energy trade includes all commodities in Chapter 27 of the Harmonised System (HS). Capacity utilisation is calculated as annual generation divided by year-end capacity x 8,760h/year. Avoided

## Home

Become Gabon's foremost supplier of pioneering green technology solutions, cultivating trust and excellence for a brighter future. Our mission is to accelerate Gabon's transition to a sustainable and carbon-neutral society, setting the standard in environmental stewardship and renewable energy innovation.

## Gabon Energy Information

Gabon CO<sub>2</sub> Fuel Combustion/CO<sub>2</sub> Emissions. In its NDC (2016), Gabon set the commitment to reduce its GHG emissions by at least 50% in 2025 as compared to a BAU scenario, including LULUCF (Land Use, Land-Use Change and Forestry), which accounts for more than 60% of direct emissions, but excluding carbon stocks in forests (i.e. sinks).

## Gabon

Under a comprehensive Master Service Agreement (MSA), Energy Vision is entrusted with providing Energy-as-a-Service to a prominent operator in Gabon. Our scope encompasses a full spectrum of services, from engineering and equipment supply to implementation, logistics, refueling, O& M services, and upgrades.
